

KADAMBARI GALINDE

COMPUTER ENGINEER

PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering student focused on Full Stack Development with hands-on experience building RESTful applications using Python and JavaScript. Strong foundation in backend architecture, database design, and API integration. Experienced in developing end-to-end applications from database schema to frontend interface. Passionate about scalable systems, clean code, and performance optimization.

WORK EXPERIENCE

Projects

Library Management System | Java, JDBC, MySQL

Designed relational database schema and implemented full CRUD operations. Built backend logic for book issue-return workflow.

Applied OOP principles for scalable and maintainable structure.

Magic Expense Splitter | JavaScript | <https://github.com/kadu1155/magic-expense-splitter>

Developed dynamic web application for automated expense calculation.

Implemented real-time logic and clean user interface structure.

Structured frontend-backend logic separation.

Advanced Notepad | Python

Built modular desktop application with file handling and error management.

Focused on clean code practices and structured architecture.

Mangal Moti Website | HTML, CSS | OnGoing

Designed responsive website with structured layout and optimized UI.

ACADEMIC HISTORY

Diploma in Computer Engineering KBP
Polytechnic, Satara | 2021-2024

Bachelor of Engineering in Computer Engineering
Alard University | 2024-2027

CERTIFICATION

- 1st Place at the Aetheron 2026 Hackathon
- Best Social Impact Startup Idea – NextGen Pitching Competition
- Sustainovation 2025 – Hackathon Participation
- Deloitte Job Simulation on Forage – June 2025
- IBM SkillsBuild – Large Language Model Basics
- IBM SkillsBuild – Build a RAG Pattern with LangChain
- IBM SkillsBuild – AI-Powered Document Retrieval using IBM Granite & Docling

TECHNICAL SKILLS

- Languages: Python, JavaScript, Java, C#
- Frontend: HTML5, CSS3, JavaScript, React (Fundamentals)
- Backend: FastAPI (Learning), Flask, Spring Boot, ASP.NET Core (.NET 8) Architecture & Concepts: REST APIs, MVC
- Architecture, OOP, CRUD Operations
- Databases: MySQL, SQL Server
- Authentication: JWT (Basic Implementation), OAuth 2.0
- Tools: Git, GitHub, VS Code, IntelliJ IDEA, Visual Studio 2022
